

One day workshop on
**Intellectual Property Rights
(IPR)** **SSIP**
Technical Perspectives

(15th February, 2020)

There are lot of innovative work and thought process going around academic institutions by students as well as faculty mentors. But the awareness and enthusiasm required to convert such innovations and ideation to IPR is still not found. Because of that, there is a large gap in potential and actual figures of IPR across state as well at national level. Hence to cater the needs of faculty mentors and student innovators, a one day workshop is organized at GEC-Dahod under the banner of SSIP. It is specifically designed for SSIP grantee projects. The SSIP grantee projects mentors as well students can participate in the workshop, but the participation is not limited to them only. Any other faculty member or student can also participate. Token registration charges are Rs. 50/- per participant and it is to be paid on the day of workshop, i.e. on 15th February, 2020.
