About GEC Patan

Government Engineering College, Patan was established in April 2004 with three branches Computer Engineering, Electronics and Communication Engineering and Mechanical Engineering each with intake of 60 totaling to 180. The institute was initially functioning in the premises of the K. D. Polytechnic, Patan temporarily. It was shifted to its own newly built up green premise in August 2008 at Katpur village on Chanasma- Patan road 8 kms before Patan. Two more branches of Electrical Engineering and Civil Engineering each with intake of 60 were introduced from June- 2009 and the intake of all three existing branches were increased to 120. Currently, institute functions with total intake of 480 in five different branches.

Preamble

Currently, global competitiveness has redefined business strategies worldwide and the focus has certainly shifted to examining how our knowledge resources can reposition our stand in the world market. India is fast

developing into a technology led country, particularly in the areas of biotechnology, information technology and pharmaceuticals sector. Therefore, development of strong and robust intellectual Property rights (IPR) system is an urgent need for India.

The workshop aims to increase awareness and understanding of Intellectual Property (IP) as well as promote innovation and creativity. Further, continuing the trends of providing a platform deliberation on IP policy, strategy for patent search, international patent classification system, use of patent information will be delivered by eminent speakers.
