About GEC Patan

Government Engineering College, Patan was established in April 2004 with three branches Computer Engineering, Electronics and Communication Engineering and Mechanical Engineering each with intake of 60 totaling to 180. The institute was initially functioning in the premises of the K. D. Polytechnic, Patan temporarily. It was shifted to its own newly built up green premise in August 2008 at Katpur village on Chanasma- Patan road 8 kms before Patan. Two more branches of Electrical Engineering and Civil Engineering each with intake of 60 were introduced from June- 2009 and the intake of all three existing branches were increased to 120. Currently, institute functions with total intake of 480 in five different branches.

About the workshop

Globally, there are over 100 million new businesses, which are launched every year. Considering the statistics, it translates into roughly 11,000 startups launched every hour! In this fast-paced environment, it is essential

for startups to keep innovating, if they want to survive.

With thousands of new companies being launched every day, startups can't afford to rest on their laurels and take the chance to not experiment or innovate. They need to keep their eyes and ears firmly on what is happening around them in the market and keep a check on what their competitors or new players are doing. Considering the pace at which technology gets obsolete today, one new or disruptive technology is all it could take to wipe out a complete business overnight, thus leading to a complete waste of all the resources, time and effort invested in building the business. So, there's little chance you can count on 'so-called' innovative product to keep your startup going, if you don't continue to make innovation your priority on a day-to-day basis.

The main aim of this workshop is to create awareness of innovation as well as startup to students.

About Experts

Experienced entrepreneurs having experience of Innovation and start-up are invited to deliver Expert session.

Registration Fee

There is no Registration fee to attend workshop. Students are requested to fill details to google link

https://docs.google.com/forms/d/e/1FAIpQLSdGrEqUiQIKw0eUbJKIE0CaeBjz1IGGRE_NIEjNXsYSK-jTcQ/viewform?c=0&w=1

on or before 07/10/2018. For more details, contact to: Dr. Hitesh Panchal, 7874759079 or Prof. Ghanshyam Sah, 9033642079.
