

## One day workshop on Draftathon - A Patent Drafting Marathon

(22 January, 2019)

Intellectual Property Rights (IPR) awareness is being created throughout the state of Gujarat through a lot of activities by various institutions under the banner of **Student Start-up & Innovation Policy (SSIP)** – a flagship program of Education Department – Government of Gujarat. A one day workshop on IPR was also arranged at Government Engineering College - Dahod (GEC-Dahod) on 30<sup>th</sup> November, 2018. The need of development of patent drafting skills was identified during that program and it was decided to organize **a workshop dedicated to patent drafting**. Hence to cater the needs of faculty mentors and student innovators, a one day workshop titled 'Draftathon – A Patent Drafting Marathon' is organized at GEC-Dahod under the banner of SSIP. It is specifically designed for SSIP grantee patent proposals and POC projects. The SSIP grantee project mentors as well students can participate in the workshop, but the participation is not limited to them only. Any other faculty member or student can also participate. Token registration charges are Rs. 50/- per participant and it is to be paid on the day of workshop, i.e. on 22 January, 2019.
