

SSIP

About the Institute and Dahod City

The institute, one of the pioneer engineering institutions of the state, was established in 2004. At present, there are five undergraduate courses. Two postgraduate courses are in mechanical and applied mechanics department in the institute. The whole campus has connectivity of the internet with fibre optical network and Wi-Fi. The institute is located at Dahod, about 150 kms West of Vadodara and is on the main railway line between Delhi and Mumbai. The institute is about 1 km away from Dahod railway station and Dahod bus station.

About the Student Start-up and Innovation Policy (SSIP) Cell

The Student Startup & Innovation Policy of Government of Gujarat aims to create an integrated, state-wide, university-based innovation ecosystem to support innovations and ideas of young students and provide a conducive environment for optimum harnessing of their creative pursuit. In this connection SSIP cell is established in GEC, Dahod.

About the Programme

Student Startup and Innovation Policy create a much-needed Innovation and Pre-incubation

Ecosystem Support for Students (IPIES). The policy provides a feed of student's ideas and innovations to the existing startup support policies of the state. The policy will develop an innovation and entrepreneurial culture in the state universities and educational organizations and thereby create more young innovators. This conference is aimed to bring innovators, researchers, academicians and practicing engineers on a common platform to discuss the recent start-up & innovation and the challenges faced in the field of engineering, science and technology and share knowledge. **The good quality selected papers will be published in UGC approved journal. The paper template will be available on institute website.**
