

Summary Report on One-Day Workshop on Energy Conservation, Electrical Safety and Substation Equipments

Date and Date: 18th February, 2020, Tuesday

A One-day workshop for the final year students of diploma electrical engineering (SF and GIA) was organized by the faculty members of electrical engineering department (SF and GIA) of BBIT in the Seminar Hall, EC Building, BBIT. The workshop was sponsored by SSIP Cell of the institute. Total 65 Nos. of students attended the workshop. The invited expert speakers delivered the talk or shared their experiences in three key domains of electrical engineering as mentioned in the title of the workshop.

(Inaugural Function) At the outset, an inaugural function of the workshop was scheduled at 10:30 AM. Dr. Artiben Pamnani, SSIP Coordinator, Dr. K. M. Makwana, Principal, BBIT, Prof. (Dr.) Kalpesh Chudasama, Associate Professor, Electrical Engineering Department, ADIT, New V.V.Nagar, Shri. Ashok Parmar, Head, Electrical Engineering Department (GIA) and Dr. A. P. Shah, I/C. Head, Electrical Engineering Department (SF), Coordinator of the workshop chaired the dais during the inaugural function.

Dr. Artiben Pamnani explained the importance of SSIP activity and briefed about the platform of SSIP, the students used in bringing innovative achievements into practise. Dr. A. P. Shah welcomed the students, guests, Heads of other departments and faculty members. He talked about the importance of the workshop to the students and briefed about the expert speakers to the students. Dr. K. M. Makwana, Principal gave the blessings to the organizing the committee of the workshop and motivate the students to use the SSIP platform to transform the ideas into start-ups and innovations. Finally, Shri Ashok Parmar gave the vote of thanks to all for providing support or assistance in organizing the one-day workshop.

(Expert Speakers) Prof. Kalpesh Chudasama shared his valuable thoughts on Energy Conservation and Electrical Safety. After the lunch break, Shri Manish Pandya shared his work experience and the knowledge of new technology in substation equipments to the students. The students took keen interest in discussions with the expert speakers and strengthened their knowledge gained in the classroom lectures.

(Valedictory Function) A valedictory function of the workshop was organized at 05:00 PM to present concluding remarks, procure students' written as well as verbal feedbacks and to present vote of thanks. Shri Manish Pandya, Shri Ashok Parmar and Dr. A. P. Shah chaired the session. A group photograph of the students with dignitaries was also clicked at the end.

(Anchoring and Organization) Mrs. Shwetaben Prajapati, Lecturer in EE Dept. (GIA) and Ms. Sonali Malik, Lecturer in EE Dept. (SF) smoothly anchored all the instances in the workshop. Mr. Vihar N. Patel, Lecturer in EE Dept. (SF) took great care in all arrangements and paper-work required for conducting a workshop.

Dr. A. P. Shah
(Coordinator of the Workshop and I/C Head of EE Department (SF))
