Name of Organiser	Prof. Ronak Vashi (SSIP Institute Coordinator)
Date & Time	04 <sup>th</sup> March 2023; 10:00 AM - 03:00 PM
Contact No.	+91 94267 24335
Total No. of Students	56

- **The objectives of the Event: -**

1. To generate viable business ideas, fund and launch the idea and provide necessary support and assistance to the students during the process by giving them assistance from entrepreneurial mentors.
2. Incubator centres typically provide startups with access to resources such as office space, equipment, funding, and mentorship to help them overcome common challenges faced by early-stage startups.

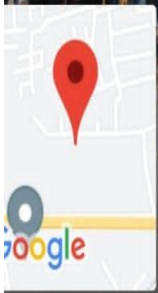

- **Brief of the Event: -**

The Savli Incubation Centre is an initiative by the Government of Gujarat to support startups in the state. The center provides a range of services to startups, including co-working space, mentorship, networking opportunities, and access to funding. Savli Technology and Business Incubator (STBI), formerly known as Savli Bio-Incubator, is a technology and business incubator located in Vadodara, Gujarat, India. It provides support and resources to early-stage startups and entrepreneurs in the areas of biotechnology, life sciences, healthcare, and other related fields. STBI offers various services such as infrastructure, laboratory facilities, office space, access to funding opportunities, mentorship, networking opportunities, and business development support. These services help startups and entrepreneurs to accelerate their growth and achieve success in their respective fields.

According to its website, the Savli Incubation Centre aims to foster innovation and entrepreneurship in the region by providing a supportive ecosystem for startups. The center also seeks to promote job creation and economic growth in the area. Overall, the Savli Incubation Centre appears to be a promising resource for startups and entrepreneurs in the region who are looking to grow their businesses and connect with other members of the startup community.

students left the college at ten o'clock and arrived there at eleven. First, they had tea and breakfast. After that, there was a one-hour session during which they learned about the Incubation Center's purpose and the facilities it provides. The next step is visiting various labs and see the engineering and biotechnological machinery.

- **Outcomes of the session: -**

1. The incubation process allows entrepreneurs to preserve capital and gain external support to accelerate their businesses growth. Through business incubation, the Enterprise Center captures each entrepreneur’s uniqueness and offers support and customized services to maximize businesses potential Students learned how to grow their start-ups and stick to the market.
2. Visiting an incubator center can be a great way to get a feel for the startup ecosystem in your area and to connect with other like-minded individuals who are working on similar projects. You may also be able to gather valuable insights and advice from experienced mentors and advisors that can help you to grow your business.

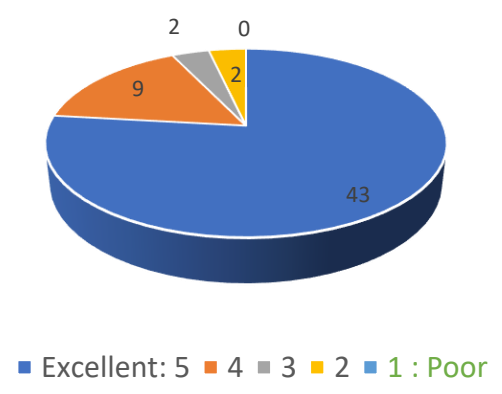

- **Feedback: -**

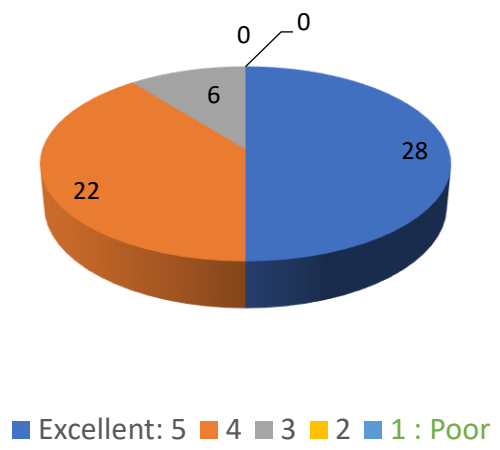

The location selected was appropriate to meet the stated objectives

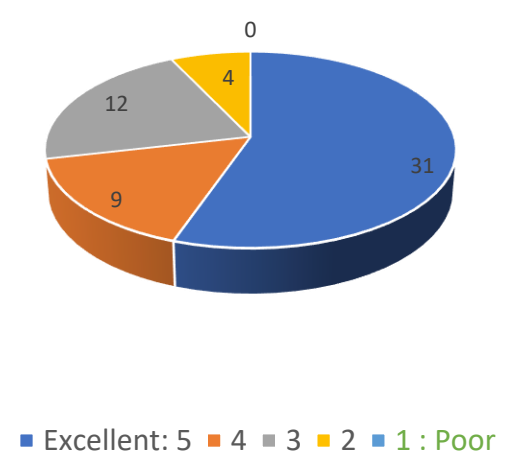

The Teacher/Resource Person was responsive to student questions during the visit.

The visit was useful to strengthen knowledge gathered in lectures

recommend this field visit to be continued.

Encl.: Attendance of Participants.
