MAKEATHON

Launch Digital Product Ideas in an Instant with No Code

26-27 Aug 2023

10:00 am onwards (48 Hours)

Online Event

What is the Open Weaver Makeathon?

- The Makeathon provides an opportunity for young developers, product enthusiasts, aspiring entrepreneurs to build their ideas into digital applications or SaaS solutions rapidly.
- You will develop a fully functioning mobile ready, digital application with live data, and using deep tech like Generative AI, from your browser using Open Weaver Studio in less than 48 hours.
- You will have access to the platform and can manage your live application post the Makeathon to showcase to your future incubators or employers, and use it to develop more awesome products.
- You can build your use case on any innovative idea you have or any Tech for Good ideas. Sample use cases will be shared in the coming days.
- No specific technology experience is required. No tools or infrastructure required.
