One day workshop on

Draftathon - A Patent Drafting Marathon

(15th April, 2023)

Intellectual Property Rights (IPR) awareness is being created throughout the state of Gujarat through a lot of activities by various institutions under the banner of **Student Start-up & Innovation Policy 2.0 (SSIP 2.0)** – a flagship program of Education Department – Government of Gujarat. The need of development of patent drafting skills was identified and it was decided to organize **a workshop dedicated to patent drafting**. Hence to cater the needs of faculty mentors and student innovators, a one day workshop titled 'Draftathon – A Patent Drafting Marathon' is organized at GEC-Dahod under the banner of IIC, GIC & SSIP 2.0. It is specifically designed for SSIP 2.0 grantee patent proposals and POC projects. The SSIP 2.0 grantee project mentors as well students can participate in the workshop, but the participation is not limited to them only. Any other faculty member or student can also participate. Refundable token registration charges are Rs. 50/- per participant and it will be refunded after successful completion of the workshop.
