

## **LATEST TRENDS IN TECHNOLOGY**

A workshop on the latest technology trends was hosted by Ignite in collaboration with Ms. Bhumi Sharma, CEO of Techno IT Hub & Ampro, for Computer Engineering and IT department students in Semester 4. This event, held on July 23, 2023, delved into crucial topics including artificial intelligence, blockchain, virtual reality, and cybersecurity.

The distinguished speakers shared profound insights into how these technologies are reshaping various industries, offering strategies for businesses to gain a competitive edge. The participants acquired valuable knowledge on the practical applications of these technologies across industries, recognizing their profound potential in shaping the future of work.
