REPORT ON NATIONAL TECHNOLOGY DAY

Date of Event: 11.05.2023

Time: 11: 00 am to 12:00 noon

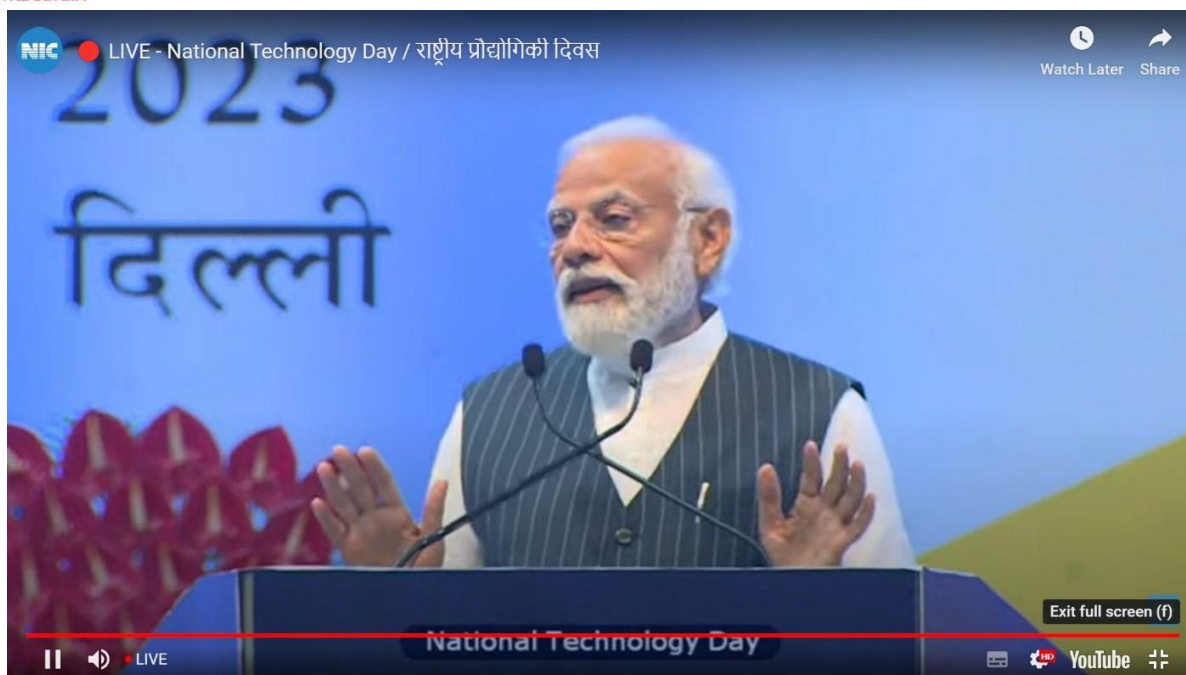

Venue: L006, Smart Class.

India observes National Technology Day every year on May 11 to remember the successful nuclear test in Pokhran in 1998. From sending Aryabhata satellite in 1975 to Chandrayaan-2 in 2019, India has achieved remarkable success in technology since Independence.

Since the Pokhran nuclear test, India has made remarkable progress in various fields of technology. Some of the notable achievements include:

Space Technology: India has made significant progress in space technology, with the launch of the Mars Orbiter Mission, Chandrayaan-1, and Chandrayaan-2 missions. The Indian Space Research Organization (ISRO) has also launched record 104 satellites in a single mission.

This year, MIC had organized mega event which is happening with collective involvement from 11 government agencies and ministries which will see more than 500 technology start-ups and innovations to be showcased. This event will be inaugurated by the Hon'ble Prime Minister of India and deliver the inaugural address at 10.00 AM on 11th May 2023. Here are some glimpse of events attended by the students and faculty at our institute

Dr. Prachi Pandey,
President, IIC

Dr. Falgun A. Mehta
Director, KSP
