Objective

The event gratifies everyone to consider newer approaches to minimize resource consumption, create greener models, become more sustainable, protection wild spaces, sequence and motivate youngsters, students to live in harmony with nature, and for them to become curators of a green future.

Benefits of attending event

- From climate change to biodiversity loss, the earth is in danger.
- The decisions we have made in the past are aggressive our present.
- The future of our lives hangs in the balance, but there is hope if we all take action now.
- This sequence shows how we each can make a critical difference between environment and protection.

About the event

The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. In this day the pledge speech is delivered by Mr Dhruv Trivedi in presence of all Deans, HODs, Principles and faculty. It is a day that reminds everyone on the planet to get involved in environment friendly activities. From Rai University, Ahmedabad all faculty come together to initiate towards building a greener planet. Keeping this aim in view, the faculty of Rai University, Ahmedabad were briefed about the importance of this day. They were asked to plant a sapling in small pots and bring them to university to create a green corner in the university Domes corridor. A lot of enthusiasm was

seen in the faculty to take initiative of our planet by promoting planting trees, by pollution control and measure to protect our environment. The event was conducted successfully with whole hearted participation and awareness for a greener world.

On the occasion of world environment day, let's take initiative to take care of our planet by promoting planting trees, by practicing pollution control measures to protect our environment. We hereby initiate to create and maintain strict and sustainable eco-friendly approach personally and professionally. Being an environment warriors we initiate to refrain as much as possible from the use of single use plastics, cutting of trees in light of damage caused to the environment. We will collectively work for conservation, protection of resources wisely. We will commit to and use the possible ways to encourage others to do the same. We will follow the motto of reduce, reuse and recycle in all walks of our life to make planet healthier and safe.

Highlights of the event

World environment day is a global platform for inspiring positive change. In this day the pledge speech is delivered by Mr Dhruv Trivedi in presence of all Deans, HODs, Principals and faculty. People from different countries participate in this United Nations international day, which celebrates environmental action and the power of governments, businesses and individuals to create a more sustainable world.

World environment day (WED) is celebrated annually and encourages awareness and action for the protection of the environment. It is supported by many non-governmental organizations, businesses, government entities, and represents the primary united-nations outreach day supporting the environment.

World environment day celebration 2023

First held in 1973, it has been a platform for raising awareness on environmental issues as marine pollution, overpopulation, global warming, sustainable development and wildlife crime. Each year, the program has provided a theme and forum for businesses, non-government organizations, communities, governments and celebrities to advocate environmental causes.
