

Rai University, Ahmedabad

Organized

Industrial Visit to Adani Group of Companies, Mundra

On

18th & 19th April-2023

Conducted by

IIC (Institution's Innovation Council)

SSIP (Student Startup Innovation Policy), &

Rai University, Ahmedabad

Date: 18th and 19th April, 2023

Mode of Visit: Offline

No. of students: 76

No. of faculty: 4

Visit Coordinator's: **Mr. Kamlesh L. Patel**
Mr. Dhruv B. Trivedi
Miss. Poonam Chakravarty
Miss. Vaishali N. Mahavar

Objective:

- 1) To give the Students knowledge of how companies are run internally.
- 2) To give students a chance to learn practically through interaction, processes, and employment practices.
- 3) To assist students in fusing their academic understanding of business operations with their practical understanding of how they actually operate.

Benefits of Industrial Visit:

The only way to gain practical experience through industry trips is to learn how a firm might be launched and what real-world problems are encountered.

About the Visit:

This report is a summary of the two day Industrial visit at Adani Foundation, Mundra for the Engineering and MBA Students. As a part of the practical exposure, this Industrial visit was arranged by Rai School of Engineering of Rai University. All the students have visited Adani Port, Adani SEZ , Adani Wilmar and Adani Power generating plant with faculty members. The visit was very informative and fruitful. We are thankful to the Adani Foundation for allowing us to visit.

About Adani Foundation

Adani Group Foundation - An Overview

- Adani Group was established in May 1996. It is situated in Ahmadabad.
- It looks after the corporate social responsibility related activities of the group, which has now become synonymous with creating wealth and providing better living for the people.

- It was begun in a small way by working with a few rural communities around its port at Mundra.
- Adani foundation is the corporate social responsibility arm of Adani group, an integrated infrastructure conglomerate that is committed to inclusive growth and sustainable development in not only the communities but it operates in contributing towards nation building.
- The focus of the activities is mainly on three major dimensions of human development which includes:
 1. Expansion of sustainable livelihood opportunities
 2. Improving the status of health and education
 3. Broadening the range of choices by creating rural infrastructure.
- The aim is to walk with the communities, help people look ahead, make the right choices and secure a bright and beautiful future together.
- The Foundation conceptualizes its purpose by consolidating the activities under four broad working areas as:
 1. Education
 2. Community Health
 3. Sustainable Livelihood Development
 4. Rural Infrastructure Development

About Project Udaan

- Project Udaan is a learning-based initiative focused on youth coming from various schools/colleges/institutions across the states of Gujarat, Maharashtra, Rajasthan, Odisha and Karnataka.
- Under this project, an exposure tour is organized where in students are given a chance to visit the Adani Port, Adani Power & Adani Wilmar facilities and gain insight into the large-scale business activities carried out at these sites.
- The major objective behind organizing such visits is to encourage the younger generation in developing an interest for all sorts of enterprises and dream big in life.
- The Adani Foundation believes that the right kind of exposure helps young minds in understanding their potential and becoming motivated to work towards their goals.

- Adani Foundation with a vision to familiarize & inspire the future generation to become successful business people, managers, engineers etc. organizes 02 days educational field trip to Mundra with contributory fee Rs. 1180/- per member (Including GST).
- The tour was arranged for 76 students and 04 faculty members and transportation by 2 X 2 air-conditioned bus with a capacity of 40.
The accommodation was provided by the Adani Foundation guest house (Shanti-Vihar) near Mundra Township.
