RSS (Rai School of Sciences),
Rai University, Ahmedabad

Date: 26/12/2023

The theme of Day: “Innovative Methods to Sustainability with Mission LiFE”

Venue: Mohammadi Convent High School, Dholka

Time: 03:15 pm - 4:45 pm

No. of students Participated: 50

No. of faculties Participated: 03

Objective:

The objective of the Mission LiFE will action the ideas and ideals of LiFE through a mission-mode, scientific and measurable programme and demonstrate India’s commitment to walk the talk on climate change. The day serves as a platform to promote environment awareness, encourage conservation practices, celebrate conservation successes, foster environment stewardship and promote sustainable life. Also, to mobilize citizens to take individual and collective action for protecting and preserving the environment.

Highlights

The event on "Innovative Methods to Sustainability with Mission LiFE" held on the 26th of December was a resounding success. In order to become very environment friendly individual, mission life helps in order to provide livelihood opportunities to the people without having to compromise the environment along with the opportunities. The event brought opportunities to the youth so that they can practice reducing, reusing, and recycling agenda and can become people who are very serious about the environment of their country and discuss practical approaches to integrating mission life themes into daily routines. The activity featured insightful presentations and interactive sessions led by our esteemed speaker, **Dr. Dhanya J. S.** Her expertise and engaging style captivated the audience, providing valuable insights into the workshop's theme. **The session emphasis that the Mission life is an action plan which includes a lifestyle modification that is implemented in India in order to provide proper opportunities for sustainable development and in order to provide proper opportunities to the future generation to come.** This is a part of the Indian cultural order to reduce reuse and recycle and this event is a very prestigious event because it will provide proper opportunities so that the Indian people can learn about reuse, recycling, and reducing. Participants actively engaged in discussions, fostering a collaborative learning environment. The diverse perspectives brought forward by the attendees added depth to the conversations and to provide proper opportunities related to sustainable development and safeguard and preserve the environment in which we are living. The students is explained with, various ways through which they will be able to save the environment and provide proper opportunities related to sustainable development. The coordination team, led by our dedicated duty bearers, ensured the seamless execution of various aspects of the event. From geotagging photos to managing feedback forms, each team member played a vital role in the event's success. All the faculty members’ efforts in maintaining discipline contributed to a respectful and focused atmosphere throughout the workshop. Attendees appreciated the conducive environment for learning and networking. **Mr. Vardan Parmar** delivered a heartfelt vote of thanks, expressing gratitude to **Dr. Dhanya J. S.**, participants, and everyone involved in making the event a success. Participant feedback has been overwhelmingly positive, with commendations for the informative content, engaging format, and the overall organization of the event will be crucial in shaping future workshops to better meet the needs and expectations of our audience. Mission life is provided in order to provide benefits to the people of the world so that they can make their life sustainably developed without having to worry about the future generation and the climate change in which we are living. This is a battle against climate change and this battle will be a battle of the century through the development of this mission of life that

stands for pro-planet people. The success of the session is a testament to the collaborative efforts of our team, the expertise of our speaker, and the active participation of attendees. We are grateful for the support and dedication of everyone involved and look forward to building on this success for future events.
