### Brief Description of the event:

In a dynamic initiative aimed at fostering student entrepreneurship, an event named Sharkteen 4.0 targeting individuals under 20 years old generated significant traction through Instagram, yielding 125 promising leads. Following extensive outreach efforts, 31 students enthusiastically submitted their innovative ideas via Google Forms. Subsequently, a series of rigorous initial screening meetings conducted on Google Meet, each facilitated by distinct teams, culminated in the selection of 12 standout teams.

Further enhancing the event's inclusivity and opportunity, two teams from TIE Ahmedabad earned a coveted wild card entry, with one team ultimately securing selection. Notably, three student startups—HelpTag - 365, 3D Wedding Invite, and Check My Warranty—distinguished themselves, each securing funding amounting to 2 lakhs, 2 lakhs, and 1 lakh respectively, underscoring the event's commitment to empowering young entrepreneurs.

In a pivotal next step, all participants were invited to an incubation center gathering on July 4th, promising continued support through financial backing or mentorship opportunities. This event not only showcased promising entrepreneurial talent but also underscored the commitment to nurturing and fostering innovative ideas among young minds, ensuring a robust foundation for future entrepreneurial endeavors.
