## About Our College

M. N. College was founded in 1946 with help of a generous donation of Late Sheth Shri Maneklal Nanchand was like an oasis in the desert, a temple of 'Saraswati' for so many high school educated youths of North Gujarat. It was the only government college of its kind in the whole region between Ahmedabad and Ajmer. It is still a matter of great pride that the college has as its first Principal Shree V.K.Gokak, a 'Gyanpith' Award winner, a well-known Poet and Professor of English, who nurtured and nourished the college in its childhood. M.N. College became soon famous as a great centre of culture and learning under the stewardship of Shree Gokak, who fondly called it "The Princess of Desert".

## About PRATHAM

The Government of Gujarat with SSIP aims to create an integrated, state-wide, university-based innovation ecosystem to support innovations and ideas of young students of Gujarat State and provide a conducive environment for optimum harnessing of their creative zeal. M. N. College is honored for being selected as a grantee institute for a period of 2 years by SSIP, Gujarat.

To promote start up and innovation cultural among students through SSIP, the institute has taken initiative to provide necessary facility at "Pratham"- Student Startup and Innovation cell of SSIP at M. N. College, Visnagar. Pratham is supported by Gujarat Knowledge Society (GKS), Government of Gujarat, Gandhinagar. SSIP provide financial assistance to students for development of prototype, proof of concept, nurture their innovative idea through mentorship support. To avail such benefit students are informed to submit project proposal to [ssipmnc@gmail.com](mailto:ssipmnc@gmail.com).

**About Training:** The workshop introduces bioenzymes, emphasizing their utility in repurposing kitchen waste beyond composting. Bioenzymes are created by fermenting organic materials like various peels of fruits and jaggery, resulting in a natural cleaning liquid that replaces chemical cleaners. This versatile solution can clean surfaces, wash produce, and fertilize plants. By utilizing kitchen waste to produce bioenzymes, participants learn sustainable practices that reduce waste and promote eco-friendly cleaning, benefiting home and environment. This approach encourages zero-waste living by showcasing the multiple applications of kitchen scraps in everyday life.

➤ **E-certificate will be issued to those registered participants who will attend entire seminar.** Participants can download e-certificate from website of M. N. College after 3 working days of seminar.
