

INSTITUTE OF ADVANCED RESEARCH
The University for Innovation

HANDS-ON WORKSHOP ON BIOSENSOR TECHNOLOGY

Opportunity to unleash the technology behind
the rapid COVID-19 antigen test kit

2ND - 3RD
JUNE, 2022

REGISTRATION FEE

₹ 500 (Includes Tea & Lunch)

WORKSHOP HIGHLIGHTS

- Understanding the famous lateral flow-based biosensor technologies like pregnancy and COVID-19 rapid antigen test kits.
- How to design and develop the biosensors.
- Hands-on training in lateral flow assays development.
- 3D printing-based prototype development for biosensors.
- Future prospects and career in biosensor technology.

TAKE AWAY

Certificate

Hand on training

Kit

LAST DATE OF REGISTRATION

27th May, 2022

Scan to Register

ELIGIBILITY

- Final year graduates (Results awaited/Pass outs) only

LIMITED SEATS ONLY! (First Come First Serve basis)

CONVENOR AND DEMONSTRATOR

Dr. Alok Pandya

7+ Years of experience in biosensor technology & patent

ORGANIZED BY

Department of Biotechnology and Bioengineering
