Two-day workshop on

Innovative Applications of MATLAB:

Exploring Engineering Simulations and Machine Learning

Date: 4th Oct 2024 (Friday) – 5th Oct 2024 (Saturday)

In collaboration with the Student Start-up & Innovation Policy, a prominent initiative of the Government of Gujarat's Education Department, the **Electronics and Communication Department** has arranged a **Two-day workshop (4th and 5th Oct 2024)** at GEC Dahod. In response to the growing need for skill enhancement, the organizers have chosen to host this workshop, dedicated to **MATLAB and its applications in engineering simulations, machine learning.**

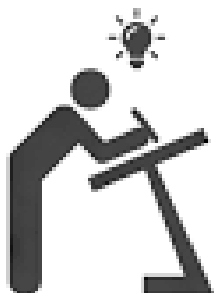

The primary objective of this workshop is to provide students and enthusiasts with valuable hands-on experience and insights, delivered by experts in the field. To address the educational and innovative requirements of both faculty mentors and student innovators, the workshop titled "**Innovative Applications of MATLAB: Exploring Engineering Simulations and Machine Learning**" will be held at GEC-Dahod, organized in collaboration with **IIC, GIC, and SSIP 2.0.** Although the primary focus is on SSIP 2.0 grantee project mentors and students, the workshop is open to the participation of any other faculty members and students who are interested in this domain.

- Last date of registration is **01st Oct 2024 till 12:30PM.**
