

# Scope of Agri-Tech Startups

Dr. Lenka will discuss the potential of agri-tech startups, focusing on sustainability, precision farming, and biotechnology. The session will highlight innovations, challenges, and opportunities in modern agriculture, guiding entrepreneurs on leveraging technology for impactful solutions. Attendees will gain insights into transforming agriculture through startups and emerging technologies.

**Speaker: Dr. Sangram K. Lenka**

Associate Professor, GBU Gandhinagar

## Objectives:

1. To mentor budding entrepreneurs to venture into technology-led agri-based startups.
2. To highlight technological advancements and their role in modern agriculture.

## Expected Outcomes:

- Enhanced awareness of the agri-tech startup ecosystem.
- Practical knowledge on leveraging technology in agriculture.

## Reasons to Attend:

- Learn about emerging trends and innovations in agriculture.
- Discover resources and strategies to kickstart your entrepreneurial journey in this domain.
