

L. M. College of Pharmacy

Organizes

23 May 2025

One Day Workshop on

Hot stage Microscopy : Techniques and Applications

Expert:

Mr. Gyanesh Siingh

Application Specialist

Objective:

We propose to conduct a comprehensive workshop on Hot Stage Microscopy at the Pune University. This workshop aims to equip research scholars and faculty members with in depth knowledge and hands-on experience in analysing material behaviour under controlled temperature conditions.

Who Should Attend?

Researchers, academicians, and scientists involved in biological and chemical sciences can attend

Topic cover:

Polymorphism and Crystallographic Transitions, Melting Point and Phase Transition Analysis, Thermal Behavior of Polymers and Materials, Drug-Excipient, Compatibility in Pharmaceutical Research, Coupled Analytical Techniques (HSM with FTIR, Raman, DSC, XRD)
