

THE HONEST COUNT

Secure. Transparent. Admin-Proof Elections.
Once Voting Begins, Even the Admin Has No Power.

What Problems are Current Elections facing???

- Admin-controlled databases
- Vote tampering fears
- No audit trail
- Governance credibility risks

How The Honest Co Fixes It...

- Voting controlled by algo
- Zero admin visibility into
- Immutable public audit tra
- Candidate document hashir

Two-Layer Trust Architecture

α -layer

- Verified voter list
- Secure access issuance
- No vote data stored

β -layer

- Anonymous tokens
- Immutable votes
- Public verification
