

GOVERNMENT POLYTECHNIC NAVSARI (975)

CIVIL ENGINEERING DEPARTMENT (06)

A Report of Program on

“DEPARTMENT LEVEL SCREENING OF SSIP”

Institute Name: Government Polytechnic Navsari

Department: Civil Engineering Department

Date: 08/08/2025

Venue: Seminar Hall (Civil Department)

Organized by: Civil Department in collaboration with SSIP Cell

The Student Startup and Innovation Policy (SSIP) aims to support student innovations by providing mentorship, funding, and incubation support. As part of the SSIP process, the **Department Level Screening** was organized to identify and shortlist innovative projects from students that have the potential to be recommended for institute-level and state-level evaluation.

Objectives of Event:

- To encourage students to present their innovative ideas.
- To evaluate the feasibility, novelty, and societal impact of proposed projects.
- To shortlist promising ideas for further development and SSIP funding.

Screening Process

The department invited SSIP proposals from students of 6th semester/3rd year. A screening committee was formed consisting of:

1. **Shri D. V. Jariwala**, I/C Head of Civil Department
2. **Shri B. J. Kapadiya**, Project Guide
3. **Shri R. A. Patel**, Project Guide
4. **Shri D. D. Patel**, SSIP Coordinator
5. **Shri R. R. Tripathi**, I/C Head of Applied Mechanics Department

Each proposal was evaluated based on the following criteria:

- Novelty & Innovation
- Technical Feasibility
- Potential for Societal Impact

- Scalability & Sustainability
- Presentation & Communication Skills

Conclusion

The Department Level Screening served as a platform for students to nurture their innovative thinking and receive constructive feedback from experts. As per the policies and criteria, innovative, novel & sustainable work, presentation skills and potentiality of students, the present group is rejected for SSIP funding.

Below shows few glimpses of the event
