

Profile of College ::

The college is one of the institutions run by Bilimora Vibhag Kelavni Mandal (BVKM), Bilimora. The society was founded by leading members of Bilimora. V.S.Patel college of Arts & Science was the first institute started by the Mandal in 1961, which was affiliated to Gujarat University and later to veer Narmad South Gujarat University, Surat. Today that seed has blossomed in to huge tree in the from of Academic college for teacher's education (B.Ed), commerce College, Pre-primary, primary, secondary school. The mandal offers a wide range of educational facilities right from Jr. K.G.Level and research work in M.Phil and Ph.D Course. The College has been pursuing its cherished tradition on promoting education and culture as emphasized by the ugc and NAAC.

About The Department ::

Department of Chemistry is an integral part of the college since its beginning and is one of the best run P.G. department in the area. The department has competent faculty members having Ph.D and research experience. It has several minor/ major research projects. Department of chemistry started M.Sc in organic chemistry in 1998 and our several college students stood first at university level on Several Occasions. We also established a counseling and placement cell, for overall personality development of students and provides them a good academic environment, So that they can meet the challenges of 21st century.

:: ABOUT THE SEMINAR ::

The seminar aims to highlight recent advancements, emerging technologies, and sustainable practices in dye chemistry, industrial intermediates, and textile processing. Considering the strong presence of dye industries, intermediate manufacturers, textile processing units, and dyeing houses in the surrounding region, the seminar will serve as an effective platform for industry-academia interaction.

Renowned academicians and industry experts will share their knowledge and practical insights, helping students understand current industrial challenges, innovation trends, and career opportunities. The program will help students to connect theoretical concepts with industrial applications, explore career opportunities, and gain awareness about industrial training, research and employment prospects in the dye and textile sector.

The seminar will enhance technical knowledge, promote research orientation and bridge the gap between academic learning and industrial applications.
