Global Inc.
MSc, LLB, Indian Patent
Agent, and DSCI Certified
Privacy Lead Assessor

This session introduces participants to the fundamentals of Intellectual Property (IP), focusing on Trademarks, Designs, Patents, and the Patenting Process. It highlights the importance of protecting creative and innovative outputs, explains the distinctions between different forms of IP, and provides practical insights into how businesses and individuals can leverage IP for growth and competitiveness. Through interactive discussions, participants will gain clarity on registration procedures, and strategies to avoid infringement. By the end of the session, they will be equipped with the knowledge to safeguard their innovations and recognize IP as a valuable strategic asset.
