Student Start-up & Innovation Policy (SSIP 2.0) Cell

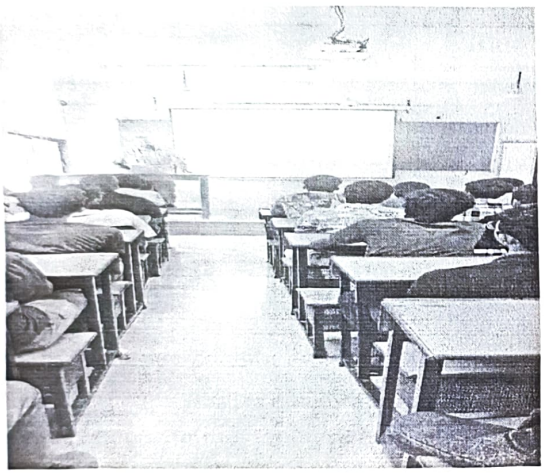

A REPORT *on* *"SSIP Sensitization Program Report"*

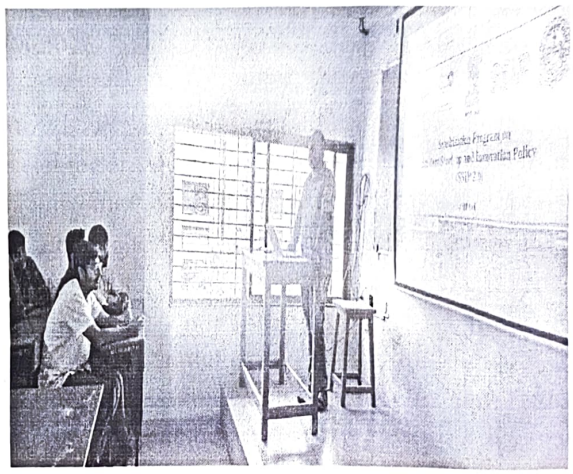

Mechanical Department

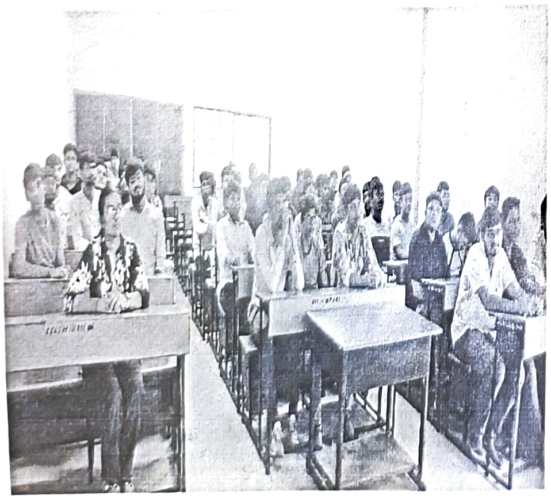

Date: 14/08/2026

The Department of Mechanical Engineering organized an SSIP (Student Startup and Innovation Policy) Sensitization Program for the 1st and 3rd semester Mechanical Engineering students on 14/08/2026. The program was conducted by the faculty members of the Mechanical Engineering Department with the objective of creating awareness among students about innovation, entrepreneurship, startups, intellectual property rights, prototype development, and the support available under SSIP. The faculty members explained the process of converting innovative ideas into prototypes and potential startup ventures and encouraged students to participate actively in innovation and entrepreneurship activities. The program successfully enhanced students' awareness of SSIP opportunities and encouraged them to develop and pursue innovative ideas during their academic journey. Total 81 students have attended is program.
