

**Shantilal Shah Engineering College, Bhavnagar**

**Mechanical Engineering Department**

**Report on seminar conducted on “SSIP 2.0 the role of startups in driving innovation. ” for sem. (vi)  
Mech. Students**

**Date: 23/02/2023**

Gujarat has always been a torchbearer in every field, whether it be industry, trade, export, culture or anything else. What Gujarat has not pioneered post independence is the education sector. However in the last two decades, Gujarat has produced some world class education and research institutes, Gujarat has long been known as a business and entrepreneurship friendly state.

Gujarat has created a one of a kind policy, The student start-up and Innovation policy (SSIP 2.0) to encourage entrepreneurship and prevent brain drain

To disseminate the information regarding SSIP 2.0 policy and to sensitize the students about **the role of startups in driving innovation** under G20 theme, a seminar was organized by Mechanical Engg. Deptt. Prof. G. J. Chauhan Head of mech. Engg. Flagged off the session with key note address.

Prof. R. A. Mehta shared the vision set by the Government for the entrepreneurship and start-ups. Various examples of start ups were discussed ( like Infosys ltd. , HCL technology start ups of 1984, Larson and Toubro ). Prof. Mehta elaborately explained the importance of maintaining quality standards for manufacturing products . Some of quality improvement techniques were explained with industries case study. The seminar was concluded with question answer

Seminar was attended by 8 faculty members and 40 students
