# Gujarat Pollution Control Board Officials' Visit

**2 Officials**

**March 11, 2023**

## About PDEU IIC:

PDEU Innovation and Incubation Centre (IIC), established in 2014 is one such unique center of excellence within PDEU that provides state-of-the-art support to innovators, technocrats, and entrepreneurs who aim to create a social impact in the society through innovative solutions to the existing problems of the society. The Centre was formally established in 2017 u/s 8 of the Companies Act, 2013. The center acts complementary to the academic and research activities of the University.

PDEU IIC has Incubated more than 160+ startups across several domains. PDEU IIC office has a specially designated area of 20,000 sq. to help start-ups grow faster.

## About GPCB:

**Gujarat Pollution  
Control Board**

The Government of Gujarat constituted the GPCB (Gujarat Pollution Control Board) on 15.10.1974 as per provisions under the Water (Prevention and Control of Pollution) Act, 1974, with a view to protect the environment, prevent and control the pollution of water in the State of Gujarat, that occupies a prominent niche in progressive and industrial development of the country

## Purpose of the Visit :

A team of experts and officials from the Gujarat Pollution Control Board (GPCB) paid a visit to PDEU Innovation and Incubation Centre to examine and assess a variety of startups working in the field of renewable energy and waste management. The objective of their visit was to survey and understand about the startups which were working in collaboration with PDEU IIC in their field of expertise.

## About the Visit :

The experts from the GPCB, upon meeting with the members and mentors of PDEU IIC, were presented with a variety of plans and strategies regarding the work PDEU IIC has been doing for the past six years. They were also introduced to a plethora of entrepreneurs and teams working on

different projects, all of which are making their way towards the global aim of achieving sustainability, reducing waste and creating a new and improved form of renewable energy.

## Conclusion:

For the past years, the Gujarat Pollution Control Board (GPCB) has been working diligently towards reducing the amount of pollution created by vehicles consuming non-renewable sources of energy. This visit allowed them to receive a clear idea of the vision of independent entrepreneurs and individuals working

towards the same goal, which is improving the environmental health of Gujarat and creating a better tomorrow.
