Sensitization Program for Semester-1 Students of Diploma in Computer Engineering

Date: 24-8-2023

Venue: Computer Engineering Department, SKJP Bharuch.

On 24 August 2023, a seminar was organized for the students of Semester 1 of the Diploma in Computer Engineering program. The seminar focused on the topic of "Student Startup and Innovation Policy and Entrepreneurship." The seminar was conducted by Mr. S. C. Patel, HOD Electrical Engineering, SKJP Bharuch.

The primary objective of the seminar was to educate and inspire the students about the importance of innovation, entrepreneurship, and the opportunities available through the Student Startup and Innovation Policy.

Mr. S. C. Patel began the seminar by giving an overview of entrepreneurship and its significance in the modern world. He highlighted the role of entrepreneurship in driving economic growth, creating job opportunities, and fostering innovation.

The core focus of the seminar was the Student Startup and Innovation Policy. Mr. Patel explained the key features and benefits of the policy, emphasizing how it encourages students to transform their innovative ideas into viable startups. He discussed various components of the policy, including funding support, incubation facilities, mentorship, and intellectual property rights.

Mr. Patel guided students on how to generate and validate their business ideas. He stressed the importance of identifying market needs, conducting thorough research, and creating a unique value proposition for their startup concepts.
