

GOVERNMENT ENGINEERING COLLEGE – DAHOD

IIC, GIC & SSIP 2.0 CELL

REPORT

One day workshop on patent drafting “Draftathon – 2023”

One day workshop on patent drafting ‘Draftathon – 2023’ was organized on 15/04/2023 at Government Engineering College Dahod under the banner of IIC, GIC & SSIP 2.0. The event started from 10.30 with inauguration function. After welcoming the guests, the function was started by lighting of lamp and Dr. P. B. Tailor has given the inaugural speech. Importance of Patent and Drafting of patents was discussed by him.

The first session was started from 11.00 am and taken by Mr. Bhavik Patel, Patent Attorney, Infinvent IP, Vadodara. After brief introduction of various types of IPR, he has explained the complete patent drafting procedure with the help of an example. The second session was on Industrial design registration. It was started at 12.30 and taken by Dr. M. K. Chudasama. The sessions included Introduction to Patent Drafting, Prior Art Search, Patent Documentation, Drawing and Diagrams, Claims, etc. There was a lunch break from 1.00 to 2.00. In the afternoon there was a session of Hands-on practice of patent drafting which was taken by Dr. Dipen Contractor. The participants have learned the prior art search and drafting of various sections of the patent documents live on their computer. The session was taken in computer lab and each of the participants were provided with desktop PCs having internet connectivity. The fourth and final session was on Patent submission and it was taken by Mr. S. S. Patil, Patent attorney, Infinvent IP Vadodara. He has demonstrated the filing of the patent with an example. The patent submitted during the session was of GEC Dahod students. At the end of the event two IPR filed, one patent and one design registration was done. The photographs of the events are attached here for the reference.
