Report on Expert Session

Angel Investment/VC funding opportunities to students, faculties and entrepreneurs

Venue: Conference Hall, Admin Block

Date: 25/08/2023

Coordinator: Prof Rahul V Prajapati and Dr. Rajesh C Malan

Introduction:

The Indian startup ecosystem has witnessed remarkable growth over the years, driven by a surge in entrepreneurial activity and increasing interest from investors. Angel investment and venture capital (VC) funding play a pivotal role in fueling the growth of startups. So, this session was arranged to provide an overview of the current landscape of angel investment and VC funding opportunities available to students, faculties, and entrepreneurs in India.

Event Details:

Dr. Bhadresh R Sudani delivered session to address the 104 students from different stream. The session was covered different points such as, Angel Investment Opportunities, Venture Capital Funding Opportunities, Government Initiatives, Incubators and Accelerators, Corporate Ventures and Educational Institutions and Online Platforms and Events.

Arrangements:

The entire program was held at Conference room, admin block of Government Engineering College, Valsad on 11:30 am onwards.

Outcome:

The Indian startup ecosystem continues to thrive, offering a wide array of angel investment and VC funding opportunities to students, faculties, and entrepreneurs. As the ecosystem evolves, staying informed about the latest funding trends and effectively preparing business proposals and pitches will be crucial for successfully securing investment. Entrepreneurs should carefully evaluate the terms and alignment with potential investors to ensure a successful partnership that propels their ventures toward growth and success.
