L.D COLLEGE OF ENGINEERING, AHMEDABAD**

21 November 2022

L. D. College of Engineering
Mechanical Engineering Department
SSIP Awareness Session

A session was organized for the students of Mechanical Engineering Department. Though a leader in Engineering education field, it wasn't long ago that the manufacturing industry and AIE experienced a challenging time with the global pandemic. Jump ahead two years, and you will find that a stable and growing production rate has been achieved for our industry partners – an exceptional outcome built on a series of process and facility improvements. Not silver bullets but incremental improvements based on strong leadership, good engineering, and a systematic approach. Speaker, Mr. Shubhneet Tyagi, CEO of The Australian Institute of Engineering, took the attendees through these approaches in detail.

Topics covered:

- Industry 4.0 and technologies
- Advanced manufacturing in metal industry
- Career opportunities or Skill shortages in Australia
- Introduction of Australian Institute of Engineering
- Graduate Diploma of Engineering – A different approach towards Masters
- Career advice and job readiness

The talk gave a glimpse about the past and hear about what is happening in our industry now and our advancements and developments for the future. The details about the session are as follows:
