

Government Science College Zalod
“Two Days DIY Kit Workshop”
October-2023
SSIP Cell & IIC

An institute level event was organised by SSIP Cell and Institution's Innovation Council of Government Science College, Zalod on 27th and 28th October, 2023. During these two days' workshop the students were given a hands-on opportunity to understand and use various DIY kits available at the Institute's SSIP and Innovation Cell. Mr. Ravi Bariya, SSIP and Innovation Co-coordinator of the Institute had explained different DIY kits to the participants and encouraged them to use the kits on their own. Dr. Bijoy Roy, SSIP and Innovation Coordinator of the Institute was also present and helped the participants during the workshop. The program was meant majorly for the newly admitted batch of the college. Total 9 students from various subjects had attended the seminar.

The students were first introduced with the Mechanical Kit and were made to assemble a wooden table using screwdrivers and drilling machine on first day of the workshop i.e., on 27th October, 2023. Due to certain unavoidable reasons the second day event was rescheduled on 30th October, 2023 and the participants were introduced to other DIY kits, viz, Basic Electronics, Mechatronics, Basic Science, Drone and other kits. Students were excited to use the kits on their own. The event was thoroughly supported by College Principal, Dr. Bhupesh N. Yagnik. All the participants were happy to get the insight about the available DIY Kits at SSIP and Innovation cell.
