Celebration of World Entrepreneurship Day at Electrical Engineering Department, GEC Bhuj

Date: 21/08/2023

Venue: ESH, Electrical Engineering Department, Government Engineering College, Bhuj

World Entrepreneurship Day is a global initiative aimed at celebrating and promoting the spirit of entrepreneurship among individuals and communities. On 21/08/2023, the Electrical Engineering Department at Government Engineering College Bhuj joined hands with students and faculties to celebrate this occasion with enthusiasm and vigor. The event saw active participation from 07 faculties and 48 students who came together to inspire, innovate, and ignite their entrepreneurial aspirations.

Event Highlights:

- Inaugural Session: The celebration commenced with an inaugural session that emphasized the significance of entrepreneurship in today's dynamic world. The Head of the Electrical Engineering Department, Prof. M. B. Jhala, highlighted the role of innovation and entrepreneurship in driving economic growth and fostering technological advancements.
- Brainstorming Session: The centerpiece of the event was a stimulating brainstorming session. Students and faculties actively participated in this session, generating a dynamic exchange of ideas. The goal was to encourage participants to think outside the box and ideate on innovative solutions to real-world problems. The interactive nature of the session sparked creativity and collaboration among attendees.
- Idea Pitching Competition: To give participants a platform to showcase their entrepreneurial ideas, an idea pitching competition was organized. Students were encouraged to present their innovative business ideas in a concise and impactful manner.
- Sensitization about SSIP policy: Participants were sensitized about government policies that provide support for development of PoC/Prototype, Filing patent/Copyright/trademarks etc. Students were encouraged to avail maximum benefits of the scheme.

Conclusion: The celebration of World Entrepreneurship Day at the Electrical Engineering Department, GEC Bhuj, proved to be an enriching and inspiring event. The active participation of 07 faculties and 48 students underscored the department's commitment to fostering an entrepreneurial mindset. The brainstorming session, idea pitching competition, Sensitization about SSIP policy collectively contributed to instilling a sense of innovation, creativity, and determination among the attendees. The event's success is a testament to the potential of young minds to shape a brighter entrepreneurial future.

The Electrical Engineering Department expresses gratitude to all participants, speakers, and faculty members for their valuable contributions in making the event a resounding success.
