

LD College Of Engineering

Subject : New India Vibrant Hackathon | **Date: November 4, 2023** | **Venue: LD College of Engineering**

Inauguration Ceremony (9:30 AM - Vishweswariya Hall):

The epic event began with a grand inauguration ceremony in Vishweswariya Hall at 9:30 AM. The ceremony was graced by the presence of esteemed guests, including Dr. IB Dave, the Head of Metallurgy Department, and Professor Tejas Seth, along with the Principal of LD College of Engineering. The ceremony commenced with the traditional lighting of diyas.

Principal Sir delivered an inspiring speech, motivating the participants and acknowledging the significance of the hackathon. He also highlighted that the entire event was being efficiently managed by Yellowside. Dr. CS Thakkar, a prominent figure, concluded the ceremony by felicitating the attendees and expressing gratitude to all the jury members, participants, teachers, and volunteers who contributed to the event's success.

Jury Panel: The esteemed jury panel played a pivotal role in evaluating the hackathon projects. The details of the jury members were as follows:

Regional Round New India Vibrant Hackathon 2023

Hackathon Kickoff:

Following the inauguration, the participants were allocated classrooms and labs after completing the registration process. Dedicated volunteers were assigned various tasks to ensure the smooth running of the event, and registrations were efficiently handled.

The event attracted students from all corners of the country, reflecting its nationwide significance. An introductory jury session was conducted, where jury members visited all participating teams and attended presentations on their problem solutions.

Hackathon Rounds:

The hackathon consisted of multiple rounds to test the participants' skills and innovation:

First Round: Participants showcased their initial prototypes and ideas to the jury, receiving valuable feedback.

Second Round: This round allowed teams to refine their projects based on the feedback received in the first round.

Lunch Break:

A well-deserved lunch break was provided to all attendees, including participants and jury members, to recharge and network. The provision of food ensured that everyone had the energy to continue with the final round.

Final Round:

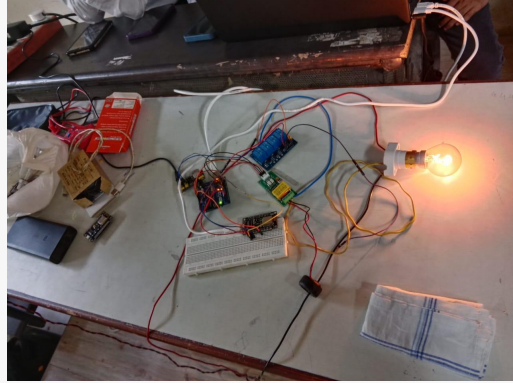

The final round of the hackathon was conducted after the lunch break, and jury members once again visited all participants to assess the progress made. This round served as the culmination of the event, where the participants had the opportunity to present their fully developed solutions.

Team Enthusiasm:

The "New India Vibrant Hackathon" brought together diverse teams from across India, each with their unique expertise and innovative projects, spanning eco-friendly solutions, medical diagnostics, home security, and education analytics. These teams showcased their innovation and commitment to positive change, contributing to the success of the event that drew participants from all over the country.

Conclusion and Certificate Distribution:

The hackathon concluded with a certificate distribution ceremony. Participants were recognized and awarded certificates for their hard work and innovative solutions. The event's success was attributed to the meticulous planning and management by YellowSide, which received widespread praise from all the attendees.

In conclusion, the "New India Vibrant Hackathon" at LD College of Engineering on November 4, 2023, was a resounding success, fostering innovation, collaboration, and learning among students from across the country. The efficient management by YellowSide and the dedication of all the participants, jury members, teachers, and volunteers made this event an unforgettable experience.
