

Report of the Activity

Innovation & Entrepreneurship Outreach Program for School

Date: 10/08/2023

Time: - 8:00 AM to 1:00 PM

Number of Participants: - 110

Karnavati Innovation and Incubation Foundation – KIIF, an Incubation centre of Karnavati University in association with Business school, IIC and SSIP organised a seminar on “Opportunities available for school students to innovate” for all girl students of Prakash High School.

The main aim of this was to inspire and educate young students about the world of innovation and entrepreneurship.

During the interactive session, the speaker shared exciting ideas, real-life success stories, and engaging activities to spark their creativity and problem-solving skills.

By fostering an entrepreneurial mindset at an early age, this session was to empower these students with the tools and confidence to pursue their passions, think outside the box, and become future leaders in various fields.

The students were given a perspective on how innovation works by peer group demonstrations and discussions.

The speaker told that education which focuses on building entrepreneurship skills can help students learn to be resilient and adaptable and can provide them with the knowledge and skills they need to start and grow their own businesses.

He gave real time examples on startups incubated at the incubation centre and gave a glimpses of their journey, how they started when they were studying and have reached to a place where they are currently.

Through such outreach initiatives, we aspire to contribute to the development of a more innovative and dynamic society.
