## **Brief Outline of the session:**

The session was organized by the Faculty of Social Work Parul University at 416, Subhash Chandra Bose Bhavan. The students discussed a project that is connected to societal issues or challenges they encounter on a daily basis. And then they began exploring for the solution to the issue.

## **Objective:**

- To help students realize their capacity to convey their various thoughts.
- To be aware of the types of issues that exist and how entrepreneurship may address them.

## **Outcomes:**

- Students were motivated to learn how to work with one another in groups.
- They also attained the knowledge about the various problems, which are faced by the society.

## **Activity Details:**

On 10<sup>th</sup> October 2023 the Faculty of Social Work, Parul University organizes an intra institutional idea competition. The competition's goal was to raise students' awareness of what exactly entrepreneurship is. How you can express your ideas and how you actually select the sector in which you wanted to start your own business. 25 students participated in the competition, along with our one faculty member, Assistant Professor Dr. Unnati Soni. Beginning around 7:30, only MSW students

participated in the competition. Before the competition began, Dr. Unnati Soni, the coordinator of the Entrepreneurship Development Cell, shared information about it, including why it was being held and how it would be conducted. She also provided a quick introduction to entrepreneurship. Further on, she directed us that while selecting a topic, it should be connected to a social issue or a situation that we encounter on a daily basis. Then she divided the students into six groups before moving forward on. Following which the students started discussing about their topics and projects among themselves. At last, Dr. Unnati Soni remarked that she would view the presentation on the next day.

### **LEARNING:**

- The students gained knowledge on how to work together with others and be innovative.
- Their critical thinking abilities were also improved and they learned to think outside the box.
- Students discovered how to make decisions and how to be more creative when working on their projects.
