Commercial Advocates & Patent Attorney

ABOUT WORKSHOP

One day workshop on " Hands on Patent Drafting" was organized by Mechanical Engineering Department in association with SSIP(student start up innovation policy) on 29th April.

Workshop started at 9:30 am at mechanical department seminar hall.

50 Students from 8th semester and 4th semester participated in workshop. Faculties from different branch also participated

Followings are some of the important point explained by speaker

- What is an intellectual property
- Which are the types of IP
- What is Patent
- Which are the tests of patentability
- Procedure to file a Patent
- Do and Don'ts during filing a Patent

Workshop was conducted effectively. All students participated actively. Questions and doubts of participants were cleared with appropriate answer.

"The question today is not whether you have IP; it is whether you know how to use IP"

GLIMPSE OF WORKSHOP
