

Date: 11-05-23

To Dean,  
R & D Cell,  
SVIT Vasad

Hereby we are submitting the report of workshop conducted on Date:24-25-April-2023.

The workshop “ IoT Basic Workshop” is conducted for the First Year Students of SVIT,Vasad. This workshop aims to provide basic information about IoT and its application development. Hands-on sessions and Demonstrations based on Cloud IoT platform provide an opportunity for participants to enrich their knowledge and skill in developing various solutions for solving engineering problems in the society. The gained knowledge during event is tested by conducting quiz and distributing prizes to top three winners. Lunch facility was also included in the event. The students actively participated during entire session.

Team of faculty members Prof Nisha Velani Prof Nitin Patel CE Dept SSIP coordinator and Prof Milin Patel and Prof Shrina Patel SDC coordinator CE Department under the guidance of Dr Neha Soni,HOD CE department has conducted the workshop. Team of eight student volunteers assisted in smooth functioning of the event. During workshop 69 students have participated in the event.
