Introduction:

Om SSIP Center had arranged seminar on Intellectual Property Rights for Academia and Startup dated 28th February 2023. Approximately 102 students from Degree, Diploma, B.B.A., M.Sc, B.com, B. Sc students were attend the seminar.

Seminar was started at 11:00 AM with introductory speech by Prof. Y. P. Gadhavi and followed by expert Mr. Kirtikumar M. Patel sir who is Director of IP Calculus.

DELFIK TUTOR

Some of the topics discussed during Seminar:

- The scheme objectives, institute level interventions, and the roadmap to avail benefits were shared at length with the students. Faculty of various departments along with the students participated in the session. About 102 students were sensitised. At the end of the session the speaker involved the audience by following a presentation with a question-answer session. This Sensitization was assisted by our SSIP Team.
- A start up or start-up is an entrepreneur to seek, a company develop, and or project validate a undertaken by scalable economic model.
- While entrepreneurship refers to all new businesses, including self-employment and businesses that never intend to become registered, start-ups refer to new businesses that intend to grow large beyond the solo founder. At the beginning, start-ups face high uncertainty and have high rates of failure, but a minority of them do go on to be successful and influential.

I am heartily thankful to all students and faculties who had coordinated this seminar directly or indirectly.
