

## Session on Entrepreneurship Skill, Attitude And Behaviour Development

On 19/02/2024, Government Engineering College Valsad hosted another enriching session on "Entrepreneurship Skill, Attitude, and Behaviour Development" for its students. Prof. N. I. Patel, Assistant Professor Electrical Engineering Department, led this session.

The primary objective of the session remained consistent: to cultivate entrepreneurial spirit among the participants and equip them with the necessary tools to translate innovative ideas into successful ventures. Students were guided on the essential skill sets,

attitudes, and behaviours crucial for embarking on the entrepreneurial journey.

Prof. N. I. Patel commenced by underlining the significance of innovation in entrepreneurship, thereafter elaborating on the diverse skill sets essential for entrepreneurial success. Drawing parallels between these skills and students' daily lives, he facilitated a deeper comprehension among the attendees. Furthermore,

he expounded on the attitudes and behaviors requisite for aspiring entrepreneurs, providing actionable insights for the students.

A total of 45 students from Electrical Engineering actively participated in the session. Through interactive sessions and engaging discussions, students not only gained theoretical insights into entrepreneurship but also acquired practical skills and perspectives essential for their future endeavors.
