-----------------------	-------------------	---------------------------	--

Name and Type of Event:	Event title: My Story-Innovation of Seaweed Bioplastic and its application
No of participants	109

- 1. Attendee:** Buddy innovators from field of Science, PPSU
- 2. Venue:** Classroom F-302, PPSU
- 3. Event outline:** The event kicked off with opening remarks that highlighted the importance of innovation and startups in driving economic growth. Attendees were encouraged to learn from the experiences of successful innovator Ms. Chavi Yadav, a student of M. Sc. Biotechnology from School of Science, PPSU and apply those lessons to their own ventures.
- 4. Outcome of event:** Students are able to inspire by story of Ms. Chavi Yadav, apply their knowledge to accelerate the process of their start up. They also got insights of ideas from the speaker. The inspiring story shared throughout the event left attendees motivated and equipped with valuable insights to embark on their entrepreneurial journeys.
- 5. Result:** Students were motivated after event as they had exposure from their peer. The event aimed to inspire budding innovators, share valuable insights, and foster a spirit of innovation and determination. Attendees were encouraged to learn from the experiences and apply those lessons to their own ventures. The event underscored the notion that success is attainable with dedication, innovation, and a willingness to learn from both successes and failures.
- 6. Recommendations for future events:** It was recommended to regularly arrange such type of informative and global level event at every stages of startup journey by buddy entrepreneurs of PPSU
