

Government Science College Limkheda

SSIP Awareness Program Nov-Dec-2023

SSIP Unit

In order to sensitize the college students about the Student Start up & Innovation Policy SSIP-2.0, a SSIP Awareness Program was organized at Government Science College, Limkheda.

Assit. Professor Mayank L Damor, Institute SSIP Coordinator delivered a talk about the importance, benefit and usefulness of the Policy. Students were also made aware of the various topics like Artificial Intelligence, start up made by different students/persons around the state and nation. Brief description of step-by-step process from Mind to Market was given and the importance of Artificial Intelligence was highlighted. The topic of awareness programme was on "Artificial Intelligence in todays world". It Included discussions on Rapid growth in the number of start-ups, Diverse sectors and innovations, Global recognition and investment, Start-ups as engines of employment, Skill enhancement and workforce development, Addressing local and global challenges, Technology-driven solutions, Ease of doing business reforms, Access to funding and tax incentives, AI, Machine Learning, and Data Analytics.

Artificial Intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think and learn like humans. The goal of AI is to develop systems that can perform tasks that typically require human intelligence, such as visual perception, speech recognition, decision-making, and language translation. The development and application of AI have led to significant advancements in various fields, including healthcare, finance,

transportation, and entertainment. However, ethical considerations and potential societal impacts are important factors to be addressed as AI technologies continue to evolve.

The event was thoroughly supported by College Principal and all the college faculties. Total 18 students of College attended the awareness program were sensitized about "Artificial Intelligence". Students were asked to observe around their neighbourhood, identify an existing problem and an idea to solve the problem.

They were also informed about the various websites and upcoming events related to SSIP and innovation planned at various levels.
