## **1. Anant National University – An Introduction:**

Anant National University is the best design university in Ahmedabad India, and aims to equip designers with tools of the digital age and a multidisciplinary approach to bring sustainable solutions to the challenges of the contemporary world. Industries across sectors are seeking designers who possess knowledge of multiple domains and can use their interdisciplinary expertise to create solutions for a better future. At AnantU, we aim to mould such designers who possess technical skills, and a holistic understanding of context and are also good communicators, collaborative workers and critical thinkers.

## **2. The AARAMBH – Incubation Center, Anant National University - An Introduction**

AARAMBH - the Incubation Centre at Anant National University promotes the entrepreneurship culture in and around the campus by offering various platforms to budding entrepreneurs where they can experiment with their business ideas, get mentorship from recognized entrepreneurs, interact with investors, government as well non-government agencies and create own organisation/enterprise.

Launched in 2021, it is aimed at creating startups focusing on the core-built environment with a subset of design, architecture, technology and sustainability. Aarambh aims at facilitating the conversion of research activity into entrepreneurial ventures and thus is actively collaborating with Government, Industry and Academia.

In addition to Anant National University, Aarambh is also supported by the Student Startup and Innovation Policy (SSIP), the Government of Gujarat and IIT Kanpur.

## **3. IPR Screening 2.0: An Introduction**

Anant National University and Aarambh Incubation Centre recognize the need for encouraging the practical application and economic use of the result of ideas and prototypes that benefit society. These may result in the generation of Intellectual property that may be in the form of patents, copyrights, trademarks, designs, processes or any other invention which may be commercialized.

To safeguard the IP & its ownership and to continuously encourage the development of such IP, the Institute has drafted its intellectual property rights policy, which will enable people to earn recognition or financial benefit from what they invent or create.

The present policy facilitates protection through Intellectual property protection on a novel work. At the same time, it motivates the faculty, students and researchers to initiate technology transfer using the intellectual property rights gained over a novel technology. The policy shall govern the intellectual property rights of the University, faculty members, research scholars, students and others connected with the work, product, ideas and inventions created in connection with the activities of the University.
