

A Report on

Workshop-
CLOUD COMPUTING

By

Mr. Manindar Singh Wadhvani

The Founder and CEO

Dashmesh Software Solutions

Conducted by

Department of Computer Engineering, GMIU

On

3rd March 2024

Introduction:

The Department of Computer Engineering department has organized an “Expert Talk on *Cloud Computing*” by Manindar Wadhvani, the Founder and director of Dashmesh Software Solutions, is a recognized leader in IT services. Under the Student Startup Innovation Policy (SSIP 2.0) of Government of Gujarat. Department of Computer Sciences hosted an expert talk event 3rd March 2024. It was a day (3 hours) session conducted and delivered a talk on Cloud Computing.

Welcome, esteemed students of computer engineering and diploma computer engineering, to an enriching journey into the realm of Cloud Computing. In today's digital era, where technology is advancing at an unprecedented pace, understanding cloud computing is not just advantageous but imperative for anyone aspiring to thrive in the field of IT.

Cloud computing, the backbone of modern technology infrastructure, offers a paradigm shift in how computing resources are provisioned, accessed, and managed. This workshop serves as your gateway to comprehend the intricacies of cloud computing, equipping you with the knowledge and skills vital for success in your academic and professional pursuits.

Throughout this workshop, we will delve into the fundamental principles, architectures, and applications of cloud computing tailored to your academic background. From understanding the basic concepts of virtualization and distributed computing to exploring advanced topics such as cloud security and scalability, this workshop promises a comprehensive learning experience.

Moreover, as future leaders in the tech industry, it is essential for you to grasp the transformative potential of cloud computing across various domains, including software development, data analytics, IoT, and AI. By mastering cloud computing concepts, you will not only enhance your employability but also contribute to innovation and efficiency in the organizations you join..

Total **50 students** have attended the 3 hour session along with **5 faculty from both side**.
