IN ASSOCIATION WITH

GISC Surat organised workshop on the Basics of Intellectual Property Rights (IPR), Patent, Patentability Requirements, and Patent Search was held on April 5th, 2024, at the Pacific School of Engineering in Surat. The aim of the workshop was to provide participants with comprehensive knowledge and understanding of intellectual property laws, patent processes, patentability criteria, and effective patent search techniques.

Event Objective:

The workshop aimed to equip participants with a thorough understanding of intellectual property laws, patent procedures, criteria for patentability, and proficient techniques for conducting patent searches.

About Guest Speaker:

Mr. Mohin Patel: As a seasoned IP professional with over 3 years of experience in intellectual property law and a Registered Indian Patent Agent, Mr. Patel provided valuable insights into the legal dimensions of patents and intellectual property rights.

Mr. Mayur Kalasariya: Serving as the Regional Coordinator in Surat and also a Registered Indian Patent Agent, Mr. Kalasariya offered practical guidance on patent search techniques and navigating the patent application process.

The session commenced with a warm welcome from Dr. Jayesh Shah, Principal of the Diploma Engineering College, who emphasized the importance of Intellectual Property Rights (IPR). Dr. Shah eloquently spoke about the significance of IPR in fostering innovation, protecting intellectual assets, and driving economic growth.

Mr. Mayur commenced the workshop by laying the foundational understanding of Intellectual Property Rights (IPR), covering various facets such as patents, designs, trademarks, copyrights, Geographical Indications (GI), plant variety rights, and trade secrets. Following this comprehensive introduction, the focus shifted to the core principles of patents, including their definition, classification, and profound significance in protecting innovations.

Next, Mr. Mohin delved into the intricate requirements for patentability, emphasizing the pivotal factors of novelty, inventiveness, and industrial applicability. Participants gained valuable insights into the stringent criteria that inventions must meet to qualify for patent protection.

Subsequently, strategies and tools for conducting effective patent searches were elucidated, equipping participants with practical techniques to navigate patent databases

and uncover relevant prior art. This segment empowered attendees with the necessary skills to conduct thorough and comprehensive patent searches.

The workshop concluded with a step-by-step guide to the patent application process, covering key stages such as filing, examination, and grant. Participants gained a clear understanding of the procedural intricacies involved in securing patent rights for their innovations, paving the way for successful patent applications.

The workshop on the Basics of IPR, Patent, Patentability Requirements, and Patent Search proved to be highly informative and beneficial for all attendees. The expertise and guidance provided by Mr. Mohin Patel and Mr. Mayur Kalasariya significantly enriched the learning experience, fostering a deeper understanding of intellectual property laws and patent processes.
