

## EVENT REPORT

---

### “Expert Talk on Ideation to Entrepreneurship & Screening of Project Applicants for SSIP Grant”

---

#### **Krishna School of Physiotherapy & Rehabilitation (KSPR)**

##### **About the Event:**

Event Name: Expert talk on Ideation to Entrepreneurship & screening of project applicants for SSIP grant

Date: 28/03/2024

Time: 10:30 am to 5:00 pm

Venue: Smart Class- L005, Ground Floor, Physiotherapy Building

Duration: One Day

Number of Participants: 11 teams from KSPR

##### **Details:**

The SSIP event held at KSPR was a resounding success, bringing together students, educators, industry experts, and policymakers to celebrate and promote innovation and entrepreneurship among students. The event aimed to raise awareness about the Student Startups and Innovation Policy (SSIP) and provide a platform for networking, knowledge sharing, and collaboration.

We are pleased to share that an expert talk on “Ideation to Entrepreneurship & screening of project applicants for SSIP grant” was organized under the IIC for Drs. Kiran & Pallavi Patel Global University by KSPR SSIP Coordinators.

An expert talk on **Ideation to Entrepreneurship** was provided by Dr. Nikunj Chavda, (PT) who has emphasised how the ideas can be transformed into entrepreneurship & also inspired and encouraged our young student innovators.

Later, undergraduate and postgraduate students, constituting 11 teams, presented their innovation in front of our expert panel.

A highlight of the event was the startup showcase, where 11 teams-led startups had the opportunity to showcase their innovative ideas, projects and prototypes. From tech-driven solutions to social impact initiatives, the showcase highlighted the diverse talents and creativity of student entrepreneurs. Attendees had the chance to interact with the expert panel, learn about their ventures, and explore potential collaboration opportunities.

The event provided ample networking opportunities for attendees to connect with peers, mentors, investors, and industry professionals. Informal networking sessions facilitated meaningful interactions, fostering new connections and collaborations that have the potential to drive future innovation and entrepreneurship initiatives.

We extend our sincere thanks to all the speakers, panellists, volunteers, and attendees who contributed to the success of the SSIP event. Special appreciation goes to SSIP Coordinators, KSPR & KPGU for their tireless efforts in planning and executing the event
