

SEMINAR ON STUDY OPPORTUNITIES IN KOREA AND CURRENT RESEARCH IN METAMATERIALS AND COMMUNICATIONS

DATE:02nd February 2024

Time: 11:00 AM – 12:00 Noon

Invited Speakers: Prof. YoungPak Lee, Hanyang University, Seoul, South Korea

Distinguished Professor YoungPak Lee, Hanyang University, Seoul, South Korea visited IIIT Surat on 2nd February 2024 and delivered a special invited talk in a seminar organised by IIIT Surat SSIP cell. The topic was opportunities in Korea and Metamaterial research in communications. This seminar was attended by selected 85 students of the institute (both from CSE and ECE branches). The main aim of the seminar was to introduce the students with the Metamaterials technology, and communication techniques in order to gain some insights and motivate them to think in the directions of communication technologies. The workshop was successful and students have enjoyed the expert talks.
