

Report on Guest Lectures for National Pharmacy Education Day held at Krishna School of Pharmacy and Research, KPGU

Date: 6th March 2024

On the auspicious occasion of **National Pharmacy Education Day**, KSP had the privilege of hosting two distinguished guest lectures that significantly contributed to the academic enrichment of our students and faculty alike.

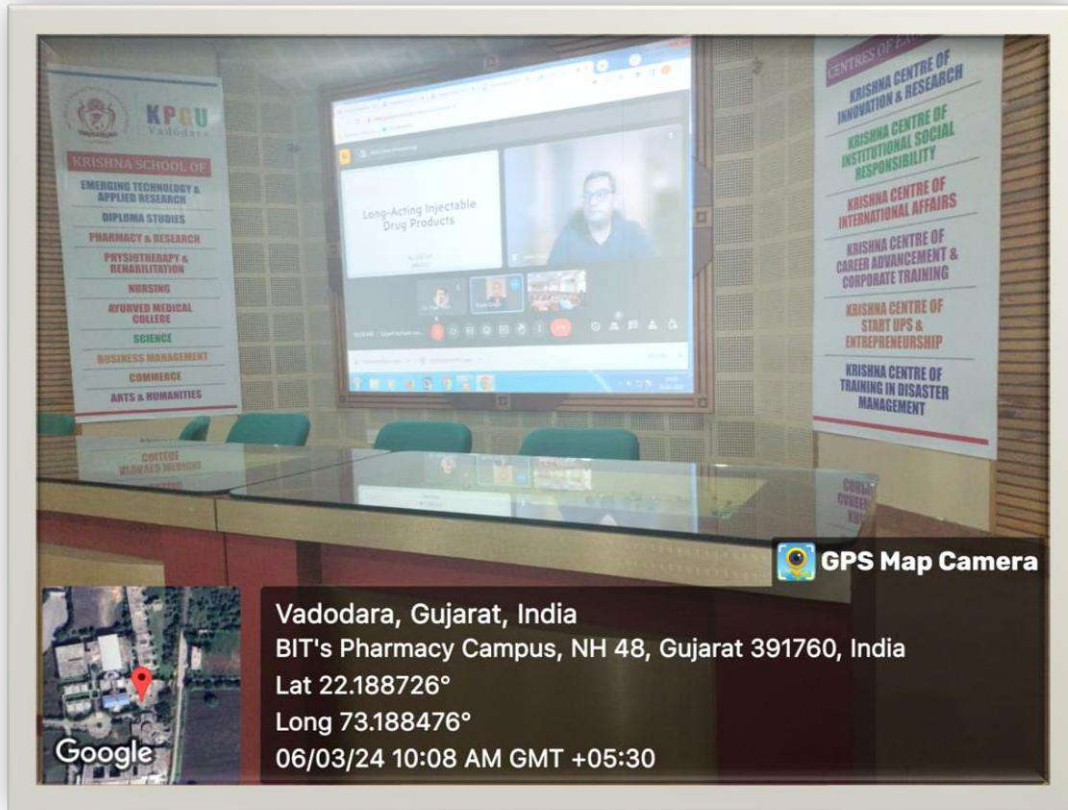

The first lecture was delivered online through Google Meet by *Dr. Milin Shah, Associate, Director, Gilead Sciences, San Francisco, USA.*, a renowned expert in pharmaceutical sciences. Dr. Milin's session was a deep dive into the latest advancements in 'Long-Acting Injectables' and their impact on patient care. The interactive webinar allowed participants to engage directly with Dr. Milin, posing questions and discussing innovative solutions for current challenges in the field.

Following the online session, we were honored to have *Dr. Prashant Murumkar, Assistant Professor, The M. S. University, Vadodara, Gujarat* to present an offline lecture in the auditorium. Dr. Prashant provided invaluable insights into the topic of 'Leveraging Synergies: Industry-Academia Partnership for Implementation of National Education Policy' (as declared by PCI). The lecture was not only informative but also sparked lively discussions among attendees, fostering a collaborative learning environment.

Both sessions were characterized by their depth of content and the speakers' ability to translate complex concepts into understandable terms. The lectures have undoubtedly left a lasting impression on all who attended, inspiring future explorations and research initiatives.

The event concluded with a formal vote of thanks and the presentation of tokens of appreciation to our esteemed guests.
