

SSIP2.0 Sensitization Sessions

Event Name: School Sensitization

Date: 13/08/2024

Venue/ Mode: Chanakya Vishva Vidhyalaya, Modasa

No of Participants: 102

Speakers Name : Dr. Mistri Piyushkumar M., Assistant Professor, Mechanical Engineering Department and Dr. Patel Ankit J., Applied Mechanics Department, Government Engineering College, Modasa.

About Event:

The Student Startup & Innovation Policy (SSIP) of the Government of Gujarat aims to establish a cohesive, state-wide, university-based innovation ecosystem that nurtures the ideas and innovations of young students, providing a conducive environment for maximizing their creative potential.

In alignment with this vision, Government Engineering College, Modasa has made a significant effort to advance students' technical development by establishing an SSIP (Student Startups Innovation Policy) cell. As part of this initiative, the SSIP Cell organized an awareness seminar on August 13, 2024, at Chanakya Vishv Vidhyalay, Modasa, targeting 9th Standard students.

The seminar was coordinated and conducted by Dr. Mistri Piyushkumar M., Assistant Professor of Mechanical Engineering, and Dr. Patel Ankit J., Assistant Professor of Applied Mechanics Department at Government Engineering College, Modasa. The session included a comprehensive presentation and discussion of the SSIP 2.0 policy of the Government of Gujarat, with a focus on financial aspects and Intellectual Property Rights related to the program. The event concluded with a lively question-and-answer session, encouraging student engagement and providing clarity on their queries.

Outcome of Event: As a result of the seminar, 9th Standard students gained a deeper understanding of the Student Startup & Innovation Policy (SSIP) 2.0 of the Government of Gujarat. The comprehensive discussion on financial aspects and Intellectual Property Rights empowered the students with knowledge about the resources and support available to them for fostering their innovative ideas.
