

## Activity 1: Seminar on Contribution of Indian Scientists in Building Modern India

**Date:** 12/08/2024

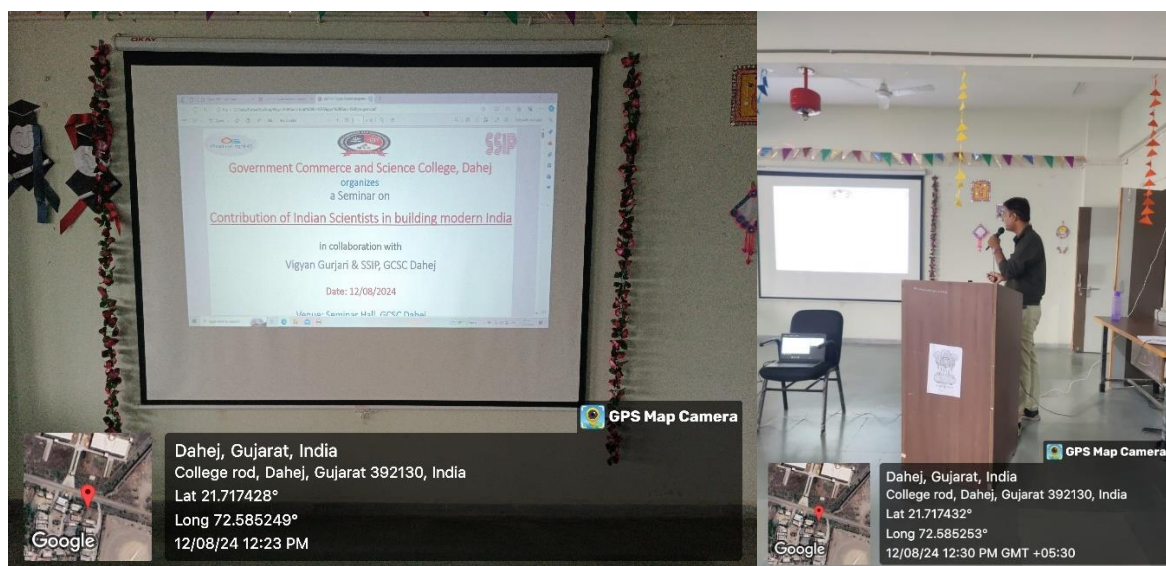

**Venue:** Drawing Hall, GCSC Dahej

**Organized by:** SSIP and Vigyan Gurjari

**Number of Participants:** 68 students and staff members

SSIP cell in collaboration with Vigyan Gurjari has organized a seminar on “Contribution of Indian scientists in building modern India” on 12<sup>th</sup> August 2024. Dr. Nirav Y. Pandya (Assistant Professor-Physics and Life Time Member of Vigyan Gurjari) delivered the lecture on the said topic. Dr. Pandya highlighted the pivotal role played by Indian scientists in the nation's development across various fields, including technology, medicine, agriculture, and space research. The objective of this program is to inspire students to engage in innovative projects and research by showcasing how Indian scientists have driven change through their creative solutions. After the key note lecture, Dr. Gourav Upadhyay (SSIP Coordinator) discussed the importance of idea generation and its importance for the nation. Throughout the event we received guidance of Dr. Leena Dave (Principal GCSC Dahej). She constantly encouraged everyone for a fruitful and successful event.
